

Exclusive Textile Wallcoverings

Desima Expiring Collections

Dear customer, business partner and friend,

Articles from our collection books are generally available for many years or even decades.

This is especially true for our traditional silver Desima collection books. The articles have a 4-digit code and we keep an extensive stock of our best-selling articles to serve our customers well. A new production takes in average about 2 weeks.

A few years ago we offered some alternative collection books with a brown or blue cover and an alternative Desima logo for a certain period of time. These books (like Schloss Salem, Diamonds, Juwels, etc.) are not part of our standard portfolio anymore. They contain products with a special 5-digit article code which can be only produced to a limited extend and on demand. A new production takes about 3-6 weeks. We recommend to focus on our traditional silver Desima collection books.

Please feel free to contact us in case you have any doubts or questions about the availability of our Textile Wallcoverings.

Which books are discontinued?

For explanation purpose we can basically divide the Desima collections/products in four categories (see table with collections on the next page).

1. The first category is our Desima backbone. These are the traditional silver Desima “Lines” which are mentioned in all price lists and on our homepage. These collection books and its products will be available for the future and are often well stocked in our warehouse.
2. The second category covers the traditional silver Desima collections which contain also discontinued articles. We recommend to check the availability with us before ordering or replace the books.
3. The third category are alternative collections which are not part of our standard portfolio anymore. We might be able to produce the wallcoverings only on demand. We recommend to check the availability with us before ordering or replace the books.
4. The fourth category are alternative collections which are discontinued.

We kindly apologize for any inconveniences regarding the availability of our products.

Yours sincerely

Desima Team
